

Hanging Heart Decoration

Step-by-step

Search for and print out heart shapes (trace from a screen or draw by hand if you don't have a printer)

Cut out and pin a heart onto your first chosen material and cut around it

Pin this heart onto another contrasting material and continue layering up (glueing or sewing in the centre) until you have 3 or more different colours or materials, making a heart stack

Repeat this step with different colours or materials until you have a few heart stacks (odd numbers work well)

Add buttons or other embellishments as you like

Fix your heart stacks onto a ribbon using glue or by sewing

Hang as a reminder to love yourself or pass on to someone special!
